WHO WE ARE

CEPR is the leading global platform for dissemination of excellent economic research and relevant policy output to the research and policy communities and the informed global public.

CEPR’s research is carried out under the auspices of thirteen Programme Areas, each with a range of activities, including an annual symposium and research projects. The programme areas are:

- Asset Pricing (led by Anna Pavlova)
- Banking and Corporate Finance (led by Elena Carletti)
- Development Economics (led by Eliana La Ferrara)
- Economic History (led by Stephen Broadberry)
- Industrial Organization (led by Pierre Dubois)
- International Macroeconomics and Finance (led by Silvana Tenreyro)
- International Trade and Regional Economics (led by Beata Javorcik)
- Labour Economics (led by Barbara Petrongolo)
- Macroeconomics and Growth (led by Nicola Fuchs-Schündeln)
- Monetary Economics and Fluctuations (led by Refet Gürkaynak)
- Organizational Economics (led by Andrea Prat)
- Public Economics (led by Camille Landais)
- Political Economy (led by Helios Herrera)

Further thematic research is also conducted within a framework of Research and Policy Networks, which build communities of researchers around topics of high policy relevance and where academic research and collaboration with policymakers can have a high impact.

To date we have launched fourteen RPNs:

- Central Bank Communication (led by Michael McMahon)
- Climate Change (led by Christian Gollier)
- Competition Policy (led by Tommaso Valletti)
- European Economic Architecture (led by Jean Pisani-Ferry)
- European Financial Architecture (led by Elena Carletti and Jan Pieter Krahnen)
- Fintech and Digital Currencies (led by Dirk Niepelt)
- Household Finance (led by Michael Haliassos)
- International Lending and Sovereign Debt (led by Christoph Trebesch)
- Media Plurality (led by Julia Cagé)
- Preventing Conflict: Policies for Peace (led by Dominic Rohner)
- Rising Asia (led by Kees Koedijk)
- Spatial Disparities and Policy (led by Helen Simpson)
- Sustainable Finance (led by Dirk Schoenmaker)
Since 1984 CEPR has played a key role in establishing the scientific excellence and policy relevance of economics in Europe and beyond. We are a community of over 1,700 top researchers. Each year we sponsor more than 250 academic conferences and workshops all over the world, and we own the globally leading platform for disseminating quality economic research and policy publications. On CEPR’s policy portal, VoxEU.org, we have an audience of over 7.5 million views per year.

CEPR has a mandate to engage in policy. It has a series of renowned products that are at the leading edge of economic policy debates; in particular, the Geneva Reports, Barcelona Reports, the Policy Insights series, eBooks, and VoxEU columns.

We are constantly growing. In 2021, we published over 1,200 CEPR Discussion Papers and our network and influence have grown even larger as we have expanded geographically - in October 2021, supported by a consortium of French partners, we opened our office in Paris. In June 2022, we organised our first CEPR Symposium at SciencesPo in Paris that brought together leading voices in European and global economics.

CEPR is the premier European and global Thinknet.
ACADEMIC LEADERSHIP

Beatrice Weder di Mauro
President of CEPR, Distinguished Fellow at the Emerging Markets Institute of INSEAD, Professor of International Economics at the Graduate Institute in Geneva

Beatrice has been CEPR President since July 2018. She previously held the Chair for International Economics at the University of Mainz, and has held visiting positions at Harvard University, the International Monetary Fund, the United Nations University in Tokyo and INSEAD in Singapore. She is a member of the boards of Bosch and Unigestion.

Sir Charles Bean
Chairman of CEPR and Professor of Economics at LSE, and formerly the Economy Expert on the Budget Responsibility Committee of the UK Office for Budget Responsibility

From 2000 to 2014, Charles served at the Bank of England as, successively, Executive Director, Chief Economist and then Deputy Governor for Monetary Policy. He was President of the Royal Economic Society from 2013 to 2015 and was knighted in 2014 for services to monetary policy and central banking.

Richard Baldwin
Editor-in-Chief of CEPR’s policy portal VoxEU.org, Professor of International Economics at the Graduate Institute in Geneva

Richard was President of CEPR from 2014 to 2018, a Visiting Research Professor at the University of Oxford, Visiting Professor at MIT Economics Department, and an Associate Professor at Columbia University Business School. He founded VoxEU in 2007.
VICE PRESIDENTS

Maristella Botticini
Vice President, Appointments at CEPR, Professor of Economics and Fellow of IGIER at Università Bocconi in Milan
Maristella is a Vice President for Appointments and Research Fellow at CEPR and President of the European Economic Association. She has been IGIER Director from 2011-2019.

Philippe Martin
Vice President, Europe at CEPR, Chair at the French Council of Economic Analysis, Professor of Economics and Dean at School of Public Affairs at Sciences Po Paris
Philippe is a Vice President for Europe and Research Fellow at CEPR. He is a Professor of Economics at Sciences Po Paris. He has also been Co-Managing Editor of Economic Policy (2006-2012).

Ugo Panizza
Vice President, New Ventures at CEPR, Professor of Economics and Pictet Chair at Graduate Institute Geneva
Ugo is a Vice President for New Ventures and Research Fellow at CEPR and the Director of the International Centre for Monetary and Banking Studies (ICMB). He is also a Fellow of the Fondazione Einaudi and Editor of Oxford Open Economics.

Mar Reguant
Vice President, Climate at CEPR, Professor at Northwestern University and Barcalona School of Economics
Mar is a Vice President for Climate and Research Fellow at CEPR. She is a Research Associate at the National Bureau of Economic Research.

Hélène Rey
Vice President, Special Projects at CEPR, Lord Bagri Professor of Economics at London Business School
Hélène is a Vice President for Special Projects and Research Fellow at CEPR. She is a member of the High Council of Financial Stability (French Macro Prudential Authority), of the Economic Commission of the Nation and the Bellagio Group on the international economy.
PROMOTING RESEARCH EXCELLENCE WITH POLICY RELEVANCE

We will:

• foster the premier European academic network in economics; to produce and disseminate excellent economic research

• promote economic research that is relevant and accessible by bringing together top academics and practitioners

• lead the debate on European economic architecture and develop special research projects and thematic networks, such as:
  • Central Bank Communication
  • Climate Change
  • Competition Policy
  • European Economic Architecture
  • European Financial Architecture
  • Fintech and Digital Currencies
  • Household Finance
  • International Lending and Sovereign Debt
  • Media Plurality
  • Preventing Conflict: Policies for Peace
  • Rising Asia
  • Spatial Disparities and Policy
  • Sustainable Finance

• expand our research focus and network in Asia

• identify and promote exceptional young talent within our research base

• broaden our network of members and supporters
CEPR is the premier European network of leading researchers in economics.

Its researchers have played a pivotal role in the European economic integration process and continue to be on the cutting edge of the debate on reforming European economic architecture. Moreover, the pandemic, and more recently our work on the reconstruction of Ukraine, have demonstrated that the CEPR network is extremely powerful in responding to a crisis. We continue to use this strength to help rebuild and recover.
CEPR’s research network includes academic researchers as well as practitioners and policymakers. We are proud to be working with a diverse group of policymakers including:

**Luc Laeven**  
Director-General of the Directorate General Research, European Central Bank; CEPR Research Fellow

**Beata Javorcik**  
Chief Economist, EBRD; Professor of Economics, University of Oxford; CEPR Programme Director for International Trade and Regional Economics

**Signe Krogstrup**  
Governor of Danmarks Nationalbank and CEPR Research Fellow

**Philip Lane**  
Chief Economist, European Central Bank; Whately Professor of Political Economy, Trinity College Dublin (on leave); CEPR Research Fellow

**Laurence Boone**  
State Secretary for European and Foreign Affairs, France; CEPR Distinguished Fellow

**Swati Dhingra**  
External member of the Monetary Policy Committee, Bank of England; Associate Professor at LSE; Associate, Centre for Economic Performance

**Claudia Buch**  
Vice President, Deutsche Bundesbank; CEPR Distinguished Fellow

**Monika Schnitzer**  
Professor in Economics and holds the Chair for Comparative Economics at LMU, Member of the German Council of Economic Experts and CEPR Research Fellow

**Agnes Bénassy-Quéré**  
Chief Economist, French Treasury; Professor, University of Paris I Panthéon Sorbonne and PSE (on leave); CEPR Associate Fellow

**Isabel Schnabel**  
Member of the European Central Bank's Executive Board; Professor, University of Bonn (on leave); CEPR Research Fellow and Distinguished Fellow
NOBEL LAUREATES
CEPR has six Nobel Laureates among its researchers:

Paul Krugman

Professor of Economics, Nobel Laureate, and CEPR Research Fellow

Paul Krugman was awarded the 2008 Nobel Memorial Prize in Economic Sciences for his contributions to New Trade Theory and New Economic Geography. He is a CEPR Research Fellow in International Trade and Regional Economics. He is Distinguished Professor in the Graduate Center Economics Ph.D. programme and Distinguished Scholar at the Stone Center on Socio-Economic Inequality at the Graduate Centre of the City University of New York.

Christopher Pissarides

Regius Professor of Economics, Nobel Laureate, and CEPR Research Fellow

Christopher Pissarides was awarded the 2010 Nobel Memorial Prize in Economic Sciences jointly with Peter A. Diamond and Dale Mortensen for their analysis of markets with theory of search frictions. He is a CEPR Research Fellow in the Monetary Economics and Fluctuations programme. He is the Regius Professor of Economics at the London School of Economics and Political Science.

Jean Tirole

Director of the Toulouse School of Economics and of the Jean-Jacques Laffont Foundation, Nobel Laureate, and CEPR Research Fellow

Jean Tirole was awarded the 2014 Nobel Memorial Prize in Economic Sciences for his analysis of market power and regulation. He is a CEPR Research Fellow in Public Economics, Financial Economics and Industrial Organization. He is Director of the Toulouse School of Economics and of the Jean-Jacques Laffont Foundation. He is also affiliated with CERAS in Paris and MIT.
**Nobel Laureates**

**Abhijit Banerjee**

Professor of Economics, Nobel Laureate, and CEPR Research Fellow

Abhijit Banerjee was awarded the 2019 Nobel Memorial Prize in Economic Sciences jointly with Esther Duflo and Michael Kremer for their experimental approach to alleviating global poverty. He is the Ford Foundation International Professor of Economics at the Massachusetts Institute of Technology; Cofounder and Director of the Poverty Action Lab and a CEPR Research Fellow in Development Economics.

---

**Esther Duflo**

Professor of Economics, Nobel Laureate, and CEPR Programme Director

Esther Duflo was awarded the 2019 Nobel Memorial Prize in Economic Sciences jointly with Abhijit Banerjee and Michael Kremer for their experimental approach to alleviating global poverty. She was the Co-Director of the CEPR Development Economics programme from its inception in 2006 until 2015. She is the Abdul Latif Jameel Professor of Poverty Alleviation and Development Economics in the Department of Economics at MIT and is a Co-founder and Director of the Poverty Action Lab.

---

**Michael Kremer**

Professor of Economics, Nobel Laureate, and CEPR Research Fellow

Michael Kremer was awarded the 2019 Nobel Memorial Prize in Economic Sciences jointly with Esther Duflo and Abhijit Banerjee for their experimental approach to alleviating global poverty. He is the Gates Professor of Developing Societies in the Department of Economics at Harvard University; a Fellow of the American Academy of Arts and Sciences; and a recipient of both a MacArthur Fellowship and a Presidential Faculty Fellowship. He is a CEPR Research Fellow in Development Economics.
Rapid Response Economics
is a CEPR publication series designed to publish research on major policy issues with the utmost speed. The first eBook of this series, *A Blueprint for the Reconstruction of Ukraine*, was published in April 2022 in response to the ongoing war in Ukraine. Within a period as short as two weeks, the collective of authors put together an overview of a possible reconstruction project in Ukraine. This book represents a starting point of what has led into a broader project encompassing further and more detailed analysis and more publications.

**eBooks**
Our latest eBooks:
- *Global Economic Consequences of the War in Ukraine: Sanctions, Supply Chains and Sustainability* by Luis Garicano, Dominic Rohner and Beatrice Weder di Mauro.
- *No Brainers and Low-Hanging Fruit in National Climate Policy* by Francesco Caselli, Alexander Ludwig and Frederick van der Ploeg.
Covid Economics, Vetted and Real-Time Papers
was launched in March 2020 and continued throughout 2021, and is a free online CEPR publication. It was created to quickly disseminate fast-rising scholarly work on the Covid-19 epidemic. Alongside VoxEU, which presents short analyses on the epidemic and other economic issues, Covid Economics features more formal investigations, based on explicit theory and/or empirical evidence.

Policy insights
• CEPR Policy Insight No. 117: The effect of the war on human capital in Ukraine and the path for rebuilding by Marianna Kudlyak, Aysegul Sahin and Yuriy Gorodnichenko.

Reports
• Barcelona 4: Technology and Finance by Xavier Vives, Thierry Foucault, Laura Veldkamp and Darrell Duffie.
• When the Tailwind Stops: The Private Equity Industry in the New Interest Rate Environment by Victoria Ivanshina.
• Geneva 25: Climate and Debt by Patrick Bolton, Lee Buchheit, Mitu Gulati, Ugo Panizza, Beatrice Weder di Mauro and Jeromin Zettelmeyer.
VoxEU.org – CEPR’s policy portal – was set up in June 2007 in the midst of the financial crisis, when the need for the analysis of what was happening and what should happen was prescient. It promotes research-based policy analysis and commentary by leading economists.

VoxEU has a very large audience, with 7.5 million+ pageviews each year and 6 million users, numbers which consistently grow annually.

VoxEU readers include a vast range of government officials, private-sector economists, elite business and media professionals, and academics, as well as students of economics. This wide-ranging audience ensures that the world’s best policy-relevant economists are keen to write for VoxEU.

VoxEU columns cover all fields of economics broadly defined. We are constantly introducing new innovations: videos, podcasts, and most recently a Blogs & Reviews section, which gathers together blog posts and book reviews from leading economists around the world.

VoxEU’s most popular column ‘A tale of two depressions: What do the new data tell us?’ by Barry Eichengreen and Kevin O’Rourke has had over 1 million reads to date.
RECONSTRUCTION OF UKRAINE

On February 24, 2022, Russia invaded Ukraine. We find ourselves faced with an unspeakable tragedy, a major war breaking out right in Europe. The end of this conflict is not in sight and the outcome is uncertain. At times where we were hoping to devote most of our focus to efforts in battling climate change and its consequences, we had to shift our focus to consequences of an armed conflict. CEPR has again mobilised its network of researchers and launched a series of efforts focused on Ukraine.

Shortly after the outbreak of the war, the collective of authors put together an overview of a possible reconstruction project in Ukraine ‘A Blueprint for the Reconstruction of Ukraine’, which formed the first issue of ‘Rapid Response Economics Series’.

In September 2022, we launched the second Rapid Response Economics issue ‘Macroeconomic Policies for Wartime Ukraine’ in Paris. The eBook brings a series of macroeconomic recommendations to put the Ukrainian economy on a sustainable trajectory for the duration of the war. The public dissemination event at La Maison de la Chimie was followed by a two-day workshop that presented early versions of CEPR’s Paris Report on the Reconstruction of Ukraine.

This has led into a broader project encompassing further and more detailed analysis including a debate on our policy portal VoxEU.org on the economic consequences of the war, moderated by Yuriy Gorodnichenko a Dominic Rohner. The debate brings evidence-based and analytical contributions focusing on a variety of dimensions linked to all field of economics, such as re-thinking energy policy, global food production or inflation and monetary policy.
CEPR has formalised its efforts to improve female representation in the economic profession with the creation of the CEPR Women in Economics Initiative. Led by CEPR’s Vice-President, Hélène Rey, this initiative aims to redress gender imbalances in the economic profession, partnering with CEPR member organisations to promote women within the field.

**WE_ARE Series**

In 2020, CEPR launched a new virtual seminar series WE_ARE - Women in Economics: Advancing Research in Economics, where junior women present their work and get constructive feedback from their peers and from senior economists. The seminar series aims to bring together junior and senior women in economics and to contribute to building an active and cooperative CEPR Women in Economics community. The seminar series is now in its third season.

**WE_ARE and WinE**

In 2021, WE_ARE joined forces with WinE, the EEA Standing Committee on Women in Economics, whose objective is to support women in the economics profession by facilitating the formation of networks, by circulating information on, or relevant to, female economists, and by providing a forum for discussion of issues relevant to women in economics. WE_ARE and WinE have introduced a series of special sessions offering useful advice and tools for junior women in the profession.

**Women in Economics: Advancing Research in Economics Internationally**

In 2021, CEPR introduced WE_ARE_IN - Women in Economics: Advancing Research in Economics Internationally. It brings together two initiatives, based in Europe and the United States respectively: CEPR’s WE_ARE Seminar Series and WiM, an annual conference, organised with support of the Becker Friedman Institute, that features the work of Women in Macro and creates opportunities to strengthen their research and expand their networks. This year’s WE_ARE_IN Macroeconomics and Finance Conference took place in Basel and was organised in collaboration with the ECB and BIS.
More than ever before, policymakers need to ground the analysis in expert knowledge and the scientific method which means constantly testing hypotheses and adjusting decisions in the light of new evidence. […] Thanks to the CEPR, policy makers can do this with less difficulty today.”

Christine Lagarde, President of the European Central Bank

CEPR Membership offers unique access to cutting-edge research with direct relevance for economic policy issues, and to the leaders shaping Europe's economic, political and financial future. Benefits include privileged access to meetings and publications as well as direct access to Europe's most influential and established network of academic economists.

"CEPR has become a synonym for the kind of economics we need.”
Mario Draghi

"The premier centre of policy-oriented research in Europe, perhaps even the world.”
Stanley Fischer

200+
Access conferences, workshops and discussion meetings organised each year

330
Connect with academic institutions represented within the CEPR network

1700
Leading economists are part of CEPR's global network

“More than ever before, policymakers need to ground the analysis in expert knowledge and the scientific method which means constantly testing hypotheses and adjusting decisions in the light of new evidence. […] Thanks to the CEPR, policy makers can do this with less difficulty today.”

Christine Lagarde, President of the European Central Bank
IMPACT AND INFLUENCE

CEPR has had a pivotal impact on economic policy going back four decades. Ideas and evidence from CEPR policy research have been influential on many topics. Similarly to previous years, when CEPR and VoxEU became the central meeting point for the production and dissemination of immediate research on Covid-19 crisis, the CEPR network mobilised again in 2022 in response to the invasion of Ukraine. As of late 2022, CEPR researchers produced two rapid response eBooks that discuss the reconstruction project for Ukraine and outline macroeconomic policies to put the economy of the Ukraine on a sustainable trajectory for the duration of the war.

The Centre’s close relationship with central banks – in Europe and around the world – is an important factor in its impact on policy. Almost all Eurozone central banks and the Bank of England are CEPR institutional members, as are the central banks of Canada, Hungary, Iceland, Israel, Mexico, Norway, Romania, the Federal Reserve banks of San Francisco and St. Louis, Sweden, Switzerland, and Turkey. The Centre collaborates actively with policymakers and researchers from these central banks, holding many conferences annually. It also supports cooperation among central-bank economists, for example with the Euro Area Business Cycle Network. The CEPR’s Euro Area Business Cycle Dating Committee (the European equivalent to the NBER’s Business Cycle Dating Committee) establishes the dates of Eurozone recessions.
IMPACT AND INFLUENCE

Our private-sector Institutional Members also play a key role in helping CEPR disseminate policy-relevant research to decision makers in financial and non-financial corporations. They regularly host CEPR workshops, conferences and public discussion meetings. CEPR engages directly with policymakers through the Institutional Memberships of government agencies. These include Japan’s Research Institute of Economy, Trade and Industry (RIETI), IMF, European Commission, OECD, the Department for International Trade and the Bank for International Settlements.

“CEPR has made an important contribution to the international policy debate in recent years ... This role will be even more important over the next decade.”

Lawrence H. Summers,
Former President of Harvard University and Former Secretary of the Treasury
